

TUTORIAL MEMBUAT LINK DOWNLOAD PADA BLOGSPOT

Berbeda dari Wordpress.com, Tools pada postingan Blogger.com (Blogspot) hanya menyediakan fasilitas insert image (gambar) dan video sehingga ketika kita ingin menyisipkan file berformat doc, ppt, xls, dll dari file yang ada di computer kita akan mengalami masalah. Untuk mengatasi masalah ini dapat diatasi dengan memberi link pada kata-kata tertentu ke URL tempat kita meng-upload file dimaksud sehingga pengunjung blog dapat membaca/menyimpan (men-DOWNLOAD)-nya.

Di internet terdapat banyak website yang menyediakan fasilitas FREE FILE UPLOADER, misal 4shared.com, docstoc.com, dan yang sangat popular ziddu.com, juga sites.google.com

Kali ini akan saya bahas bagaimana membuat link download dengan/melalui sites.google.com. Ikuti langkah-langkahnya sebagai berikut:

1. Aktifkan Google Search Engine, selengkapnya lihat gambar di bawah.

2. Pada 'Google Akun' masukkan Email beserta password anda, lalu klik 'Masuk'. Lihat gambar di bawah.

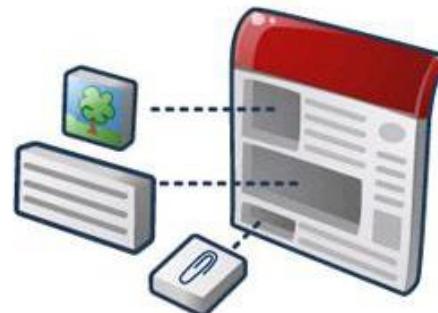

Ingin membuat situs Web?

Situs Google adalah cara gratis dan mudah untuk membuat serta berbagi halaman Web. [Selengkapnya](#).

4. Isi kotak '**Name your site**' yang anda kehendaki dan masukkan kode. Kemudian klik '**Create site**'. Lihat gambar di bawah.

The screenshot shows the 'Blank template' selected for creating a new site. The 'Name your Site:' field contains 'mursyidok' and is circled in red. Below it, the URL 'http://sites.google.com/site/_mursyidok' is displayed. A note states that URLs can only use characters A-Z, a-z, 0-9. An error message says 'The location you have chosen is not available.' with a 'Learn more...' link. Below this, there are sections for 'Choose a theme' (using template default) and 'More Options'. A CAPTCHA image 'resquill' is shown next to a text input field containing 'resquill', which is also circled in red. At the bottom are 'Create site' and 'Cancel' buttons.

Blank template Project wiki ? Classroom site ? Family site ? Soccer team ?

Name your Site:
mursyidok

Your site will be located at this URL:
http://sites.google.com/site/_mursyidok

Site URLs can only use the following characters: A-Z,a-z,0-9

The location you have chosen is not available. [Learn more...](#)

Tip, you can also fill in the site description below and try again.

+ Choose a theme (currently: using template default)

More Options

Please type the code shown.

Create site Cancel

5. Jika berhasil akan tampil jendela seperti gambar di bawah. Klik 'Create Page'.

The screenshot shows the Google Sites dashboard for a site named "mursyidok". At the top, there's a navigation bar with links like "Gmail", "Calendar", "Documents", "Reader", "Web", "more", and user info "mmursyidpw@gmail.com | User settings | My sites | Help |". Below the navigation is the site header "Google sites Home updated Mar 8, 2010 3:33 PM". On the right side of the header, there are two buttons: "Create page" (with a green plus sign icon) and "Edit page" (with a pencil icon). A red circle highlights the "Create page" button. Below the header, the site title "mursyidok" is displayed. To the right of the title is a search bar with the placeholder "Search this site".

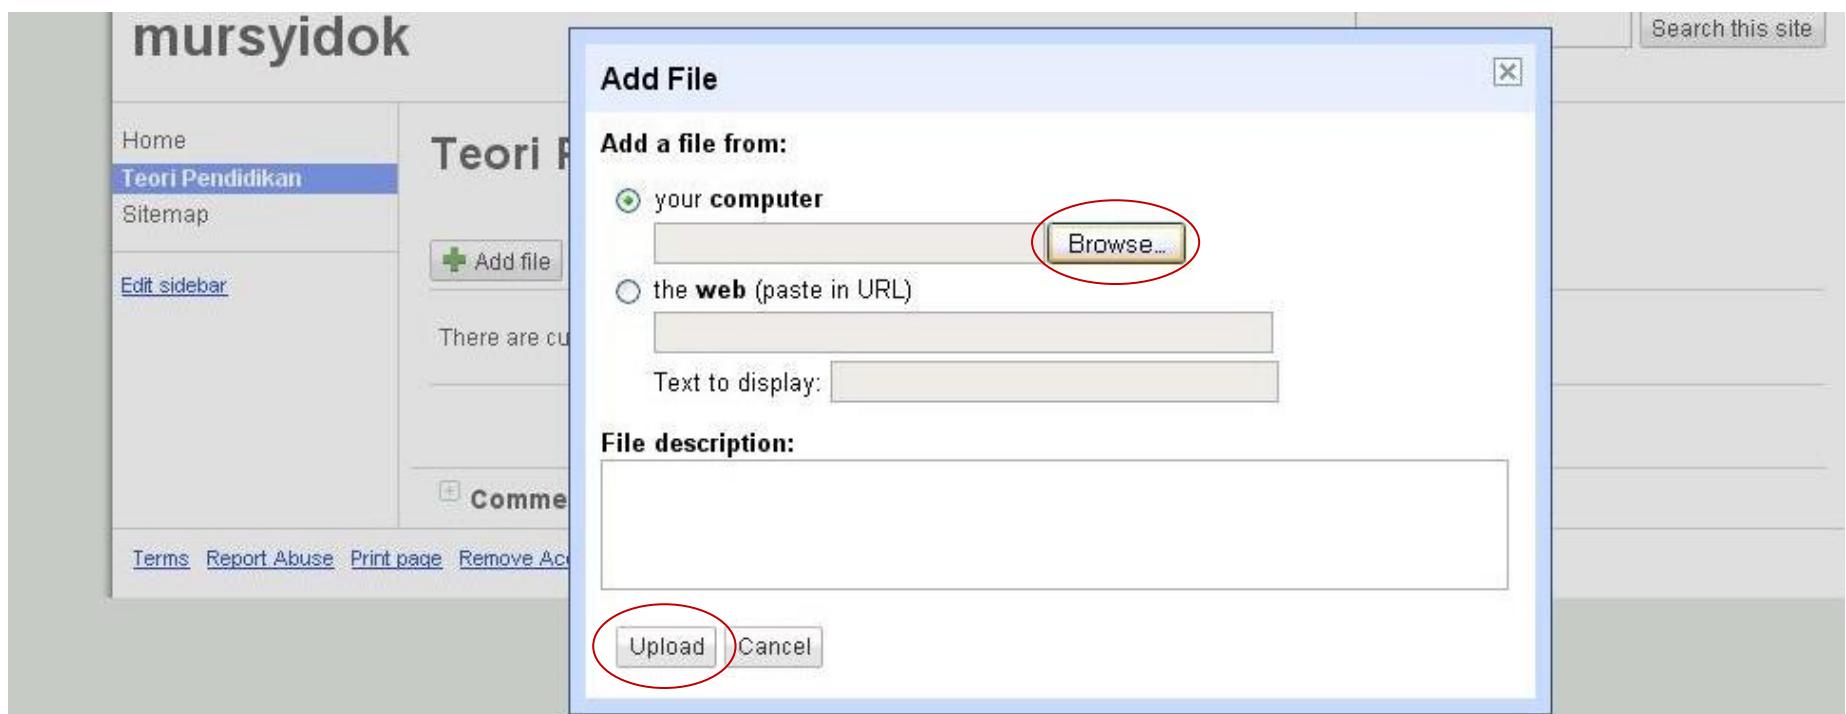

6. Setelah klik **Create page** akan tampil jendela seperti gambar di bawah. Klik (pilih) File Cabinet. Isi kotak '**Name**' (Saya contohkan Teori Pendidikan karena saya akan meng-upload file dengan nama **teori pendidikan.doc**). Kemudian klik '**Create Page**'.

The screenshot shows the "Create a new page" dialog box. At the top, it says "Create a new page (in site: mursyidok)". Below that, it asks "Select a template to use" with a link "(Learn more)". There are four template options: "Web Page" (document icon), "Announcements" (speech bubble icon), "File Cabinet" (cabinet icon), and "List" (grid icon). The "File Cabinet" option is highlighted with a red circle. In the main area, there's a "Name:" field containing "Teori Pendidikan", which is also circled in red. Below the name field, it says "Your page will be located at: /site/mursyidok/teori-pendidikan" with a "Change" link. There are two radio buttons for page location: "Put page at the **top level**" (selected) and "Put page under **Home**". Under "Put page at the top level", it shows the path "Home > Teori Pendidikan" and a link "Choose a different location". At the bottom of the dialog are two buttons: "Create Page" (highlighted with a red circle) and "Cancel".

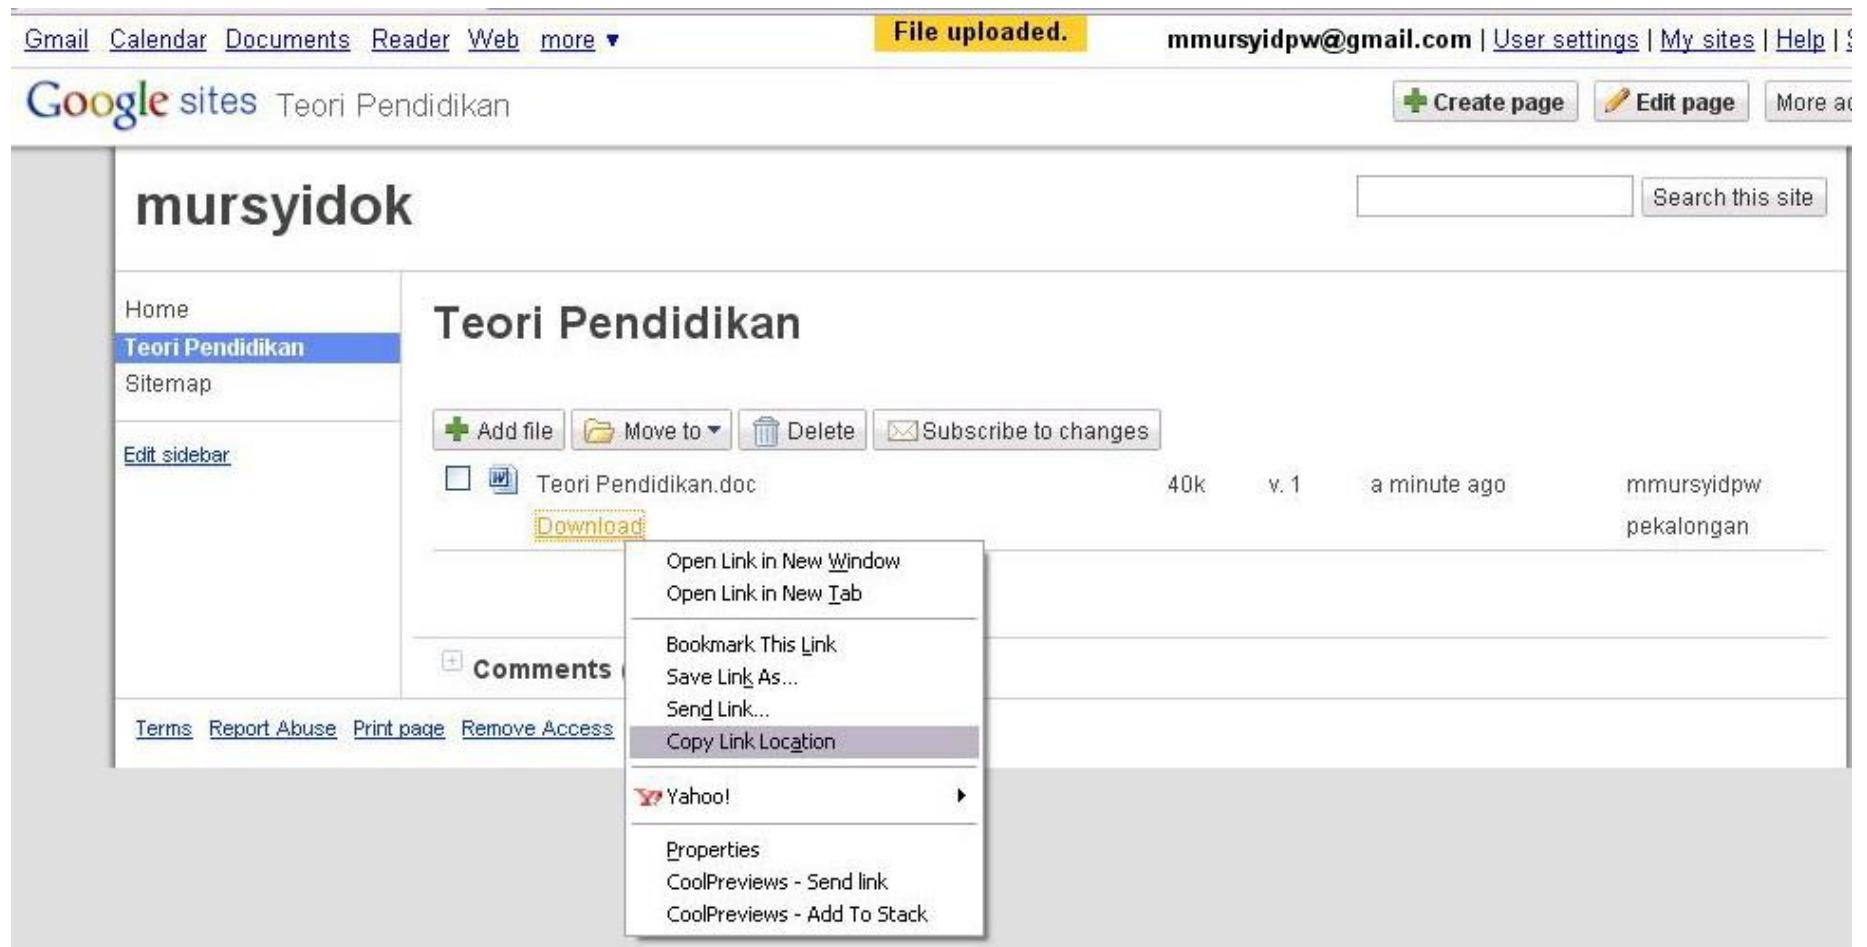

7. Setelah klik **Create Page** akan tampil jendela seperti dibawah. Kemudian klik 'Add file'.

8. Pada jendela **Add file**, klik 'Browse' (Cari dan seleksi file di computer yang akan di-upload, klik **Open**). Kemudian klik 'Upload'.

9. Setelah proses upload selesai (Pada contoh ini saya upload file Teori Pendidikan.doc), klik kanan pada button **Download**, kemudian klik **Copy Link Location**.

10. Buka tab atau jendela browser baru dan Masuk ke dasbor blog anda. Perhatikan contoh (gambar di bawah). Pada contoh saya menghendaki ketika kata **SINI** diklik akan menampilkan/membuka file Teori Pendidikan.doc yang saya upload di google.sites.com

The screenshot shows the Blogger dashboard for 'M. Mursyid P.W.'s BLOG'. The top navigation bar includes tabs for 'Posting', 'Pengaturan', 'Template', 'Uangkan', and 'Lihat Blog'. Below the tabs are buttons for 'Entri Baru', 'Edit Entri', and 'Moderasi Komentar'. A search bar contains the text 'mmursyidpw@gmail.com'. The main content area has a title 'COBA LINK' and a rich text editor toolbar. A red circle highlights the 'Link' icon in the toolbar. The text area contains the instruction 'Untuk membaca Teori Pendidikan, klik di SINI.' A red circle highlights the word 'SINI.'. A tooltip window titled 'The page at http://www.blogger.com says:' appears, prompting for a URL. The URL entered is 'http://teori-pendidikan/TeoriPendidikan.doc?attredirects=0&d=1'. A red circle highlights the 'OK' button. At the bottom, there are buttons for 'OPSI ENTRI', 'Label untuk entri ini:', 'TERBITKAN ENTRI' (which is highlighted with a red oval), and 'SIMPAN SEKARANG'. A status message at the bottom right says 'Konsep disimpan otomatis di 15:54'.

Blok teks **SINI**, klik icon Link dan akan tampil jendela **Masukkan URL**, paste-kan URL hasil **Copy Link Location Download** dari sites.google.com tadi pada kotak **Masukkan URL** ini.

Hapus kode bagian belakang mulai dari tanda tanya.

Klik OK.

Klik TERBITKAN ENTRY.

Klik **Lihat Blog** untuk melihat hasilnya.

11. Hasil contoh seperti di bawah.

The screenshot shows a blog post titled "COBA LINK" with the text "Contoh link memanggil file beformat *doc di blogspot." Below it, there is a link "Untuk membaca Teori Pendidikan, klik di [SINI](#)". The post was posted by "M. Mursyid P. W. @ 00:49". On the right side, there is a sidebar titled "Mengenai Saya" featuring a profile picture and the author's details: "Nama: M. Mursyid P. W., Lokasi: Pekalongan, Jawa". A Firefox download dialog box is overlaid on the page, titled "Opening Teori Pendidikan.doc". It displays the file information: "You have chosen to open Teori Pendidikan.doc which is a: Microsoft Office Word 97 - 2003 Document from: ...76060-a-1802744773732722657-s-sites.googlegroups.com". It asks, "What should Firefox do with this file?", with two options: "Open with Microsoft Office Word (default)" (selected) and "Save File". There is also a checkbox for "Do this automatically for files like this from now on.". At the bottom of the dialog are "OK" and "Cancel" buttons.

Ket: Apabila teks '**SINI**' di klik akan tampil jendela seperti di kanan bawah. Untuk membuka tautan pilih **Open with** dan untuk men-download pilih **Save File**, klik OK.
